Case Study – Group & Health, Design & Pricing

Introduction

In this case study, you are the President at the Skyfall Actuarial Consulting firm (Skyfall or Firm). The case study will outline the characteristics of the Firm and provide details regarding the various current clients and prospective clients of Skyfall.

All numbers found in this case study are for illustrative purposes only and are not representative of true costs or actual relationships. Any similarities with actual company results are coincidental. Plan design and plan limitations for a given plan year may not be in compliance with current year guidance, regulations, or laws.

Firm Description

Skyfall is a medium-sized consulting firm that was founded in 1965 in London, Texas and provides actuarial services to life and health insurance companies, state and federal regulatory agencies, and employers. The Firm's staff consists of over 50 actuaries who are located in the United States.

Additionally, Skyfall has a location in London, Ontario, which provides actuarial services to clients, employers and insurance carriers in Canada. The Canadian office consists of over 25 actuaries who are located throughout Canada.

Skyfall employs roughly 50 actuarial students between the two locations. These students assist in daily tasks and client management. Skyfall is committed to the development and training of future actuaries, and this can be seen in the level of training and types of projects that actuarial students assist with.

The Firm's areas of expertise include:

- Individual and Small Group Major Medical Plans
- Large Group Major Medical Plans
- Medicare Advantage and Part D Plans
- Medicaid Plans
- Medicare Supplement Plans
- Retiree Health Benefit Plans
- Group Disability Plans
- Individual and Small Group Dental Plans
- Large Group Dental Plans
- Group Life
- Group Long-Term Care
- Cafeteria Plans/Flexible Benefits.

The corporate goal is to provide affordable and quality actuarial services to its clients to ensure that they have the tools to be successful in their business endeavors. Skyfall aims to build long-lasting client relationships and strives to provide excellent services for its clients. Due to its size, the Firm caters to each client's unique needs and aims to exceed the client's expectations.

Below is a list of some of Skyfall's current and prospective clients.

Skyfall's Clients

Quantum Health Insurance Company (Quantum)

Quantum Health Insurance Company provides individual and small group coverage to its policyholders. Since its inception in 1975, Quantum has provided health care services to individuals and small groups and actively seeks to improve the overall health of its members. Skyfall's services include the development and pricing of its products, regulatory compliance guidance, and valuation services.

Individual and Small Group Major Medical Plans

Quantum actively participates in the Health Insurance Marketplace and SHOP Marketplace in most states in the US. Quantum offers all metal tier options: Bronze, Silver, Gold, and Platinum as well as Catastrophic plans. Similar products are also available off of the Exchanges and sold through brokers and agents.

Prior to the Affordable Care Act (ACA), Quantum offered major medical plans, such as HMOs, PPOs, and High Deductible Health Plans (HDHP). These plans are not ACA-compliant and are now classified as grandfathered plans. These grandfathered plans, originally marketed and sold to individuals and small groups, are no longer available for new business. The grandfathered plan block is called Quantum Legacy III.

Exhibit 1 shows a sample of the plan designs Quantum has in its portfolio of grandfathered plans and exchange plans. The first chart of Exhibit 1 shows the most sold grandfathered plan design for each year. The remainder of Exhibit 1 includes the product offerings available through the Health Insurance Marketplaces, SHOP Marketplaces, and off exchange. Key email correspondence between Quantum and Skyfall with detailed exhibits are also included.

 Subject: Quantum Experience Exhibits

As discussed in our call, here are several exhibits that we have updated recently for our legacy products (includes the plan designs seen in Exhibit 1 as well as others) and the currently issued Exchange products for the individual market. As we are looking toward future pricing needs, we hope these exhibits will be helpful.

Additionally, there have been a lot of discussions about reinsurance. To help in calculating different scenarios, we are providing some continuance tables that should help as we explore all our options here.

Thank you,
 Dominic Greene

 Subject: More Quantum Experience Exhibits

Dominic requested that I send you similar experience exhibits for the small group market. I was not sure what all you needed. So, I have included a fair amount of details here for the small group market. If I missed something, please let me know.

Thanks!!!! S.F.

Subject: Value Based Pharmacy Initiative

We've been inspired by the Value Based Pharmacy Initiative launched by Green Shield Canada and are exploring the possibility of implementing a similar arrangement for our pharmacy network. We're still working through the details, but our current vision is to assign a star rating to each pharmacy based on medication-use quality measures (to be determined). See below for more details on our proposed methodology.

Star Rating Methodology

For each medication-use quality measure for each pharmacy, we intend to assign a star rating based on a table of thresholds. Here's a sample table:

Measure	1 Star	2 Star	3 Star	4 Star	5 Star	Weight
Measure #1	< 15%	15%-40%	40%-65%	65%-90%	> 90%	Single
Measure #2	< 10%	10%-30%	30%-70%	70%-95%	> 95%	Double
Measure #3	< 20%	20%-40%	40%-60%	60%-80%	> 80%	Single

Once each measure's star rating is determined for a pharmacy, the pharmacy's overall star rating would be a weighted-average based on the "Weight" provided in the table above. I think an example may be helpful:

Measure #1 = 55%
Measure #2 = 85%
Measure #3 = 90%

The star rating for each measure would be:

Measure #1 = 3 stars
Measure #2 = 4 stars (double-weighted)
Measure #3 = 5 stars

The pharmacy's overall star rating would be a weighted-average: $\frac{3+4+4+5}{1+2+1} = 4.0$

Our opinion is that pharmacies with 4.5 to 5.0 stars would be classified as "high performing".

Make sense? Thoughts?

Royale Health & Life Insurance Company (Royale Health)

Large Group Products/Administrative Services Only

Royale Health, incorporated in 1980, offers coverage options for large group employers, including fully insured options and administrative services only (ASO) options. Health coverage plan options offered by Royale Health include medical and prescription plans, which are marketed primarily through agents and brokers. Royale Health has been successful in establishing its own preferred provider networks in the Midwestern states and has the second largest market share in the large group market of the Midwest Region. The medical plan portfolio includes PPO plans and qualified high deductible health plans (HDHP), which can be combined with a Health Savings Account (HSA). Royale Health also administers Health Reimbursement Arrangements (HRA) offered by employers. Royale Health’s Board is considering a proposition for incorporating a managed care business division that can leverage its fast growing provider networks to offer competitively priced HMO, POS, and PPO plans.

Royale Health witnessed material enrollment gains in the HDHP/HSA market in 2019, increasing from 42% of its total enrollment in 2018 to 61% in 2019. They are currently analyzing if its current pricing model needs to be recalibrated to reflect induced demand utilization factors that are closer to what their experience shows.

Rates for large groups are experience rated on either a prospective or retrospective basis. Royale Health’s underwriting department will, at its discretion, consider retrospective experience rating for groups with more than 2,000 enrolled enrollees.

For its self-funded groups, Royale Health also provides stop loss coverage as an option for these groups to mitigate their risks. Groups can choose between specific and aggregate stop loss or, most commonly, choose a combination of both.

The manual rates (claim costs) PMPM for large groups are provided in Exhibit 2. The manual rate adjustment factors include industry factors, demographic factors (based on age and gender), and HSA/HRA deductible funding factors (Exhibit 4). The HSA/HRA deductible funding factor accounts for the anticipated increase in utilization of services due to “first dollar” coverage provided when an employer group funds a portion of the plan deductible.

Each group is charged a pooling charge of 8.5% for large claims exceeding an attachment point of \$100,000. The calendar year trend factors used to project historical experience of the group to the proposed rating period are shown in Exhibit 3.

Non-claim expenses used in development of premium, expressed as a percent of premium, follow:

Exhibit 1 – Non-Claim Expenses (2020)	
General Administration	7.2%
Profit Margin	3.0%
Premium Tax	1.8%
ACA Health Insurer Tax	2.0%

Subject: Provider Contract

We are actively working with one of our biggest providers in the area, Lynd Hospital System, to renew our reimbursement arrangements with them. There have been a lot of changes to the current contract. I would like your review. I have attached the proposed provider contract for the Lynd Hospital System.

We are also working with Montenegro Hospital, but their contract is not as complex. I will attach it as well.

Thanks,
Le Chiffre

Lynd Hospital System Contract – Effective 1/1/2020 to 12/31/2022

This Contract is between C. Royale Health & Life Insurance Company (Royale Health) and Lynd Hospital System (Lynd Hospital). The effective dates of this contract are January 1, 2020 – December 31, 2022. Below are the details of the reimbursement arrangements between the two parties.

Goldfinger Insurance Company (GIC)

Goldfinger Insurance Company provides Medicare Advantage Plans and Part D Plans (MAPD), Medicaid, Medicare Supplement, and CHIP plans to the applicable target groups. GIC is domiciled in Fort Knox, Kentucky.

Medicare Supplement

GIC offers the standardized Medicare Supplement benefits for Plans A, B, C, D, and F but requires the use of a select network of providers. Premiums for the Medicare Supplement product are issued on an attained age basis and vary by age, plan type, geographic area, smoking status, and gender. GIC recently implemented the Medicare Supplement program in 2017, and total membership in the Medicare Supplement program is currently only 800 members, all in Kentucky.

Skyfall provides actuarial support for GIC's Medicare supplement products and aids in pricing development, profit studies, and rate revisions, as necessary. The following is a selection from the email correspondence between Goldfinger and Skyfall regarding the emerging Medicare Supplement experience.

Subject: Medicare Supplement

Hello again, thank you for your help in reviewing the 2017-2019 experience for our Medicare Supplement products and projecting future experience. I have attached the earned premium and incurred claims for all plans combined. This reflects experience from 1/1/2017 through 12/31/2019.

I believe you already have the monthly rates used for all plans, but I've included the smoking and area factors we are currently using. Last year, we discussed using smoking status factors that vary by age but decided to go with a simplified approach. Please note that the attached rates are Area 1 rates which make up the majority of our membership.

If you need anything else, don't hesitate to ask.

Thanks again,

Your Eyes and Smiles Insurance Company (Your Eyes)

Your Eyes and Smiles Insurance Company, a leading provider of dental and vision benefits, offers managed care and indemnity programs. Since 1995, this private insurance company has offered innovative programs designed to control costs and provide quality vision and dental care. Your Eyes has been one of the early pioneers whose marketing methods underscored the impact of oral health on overall wellness. In early 2012, Your Eyes started adopting an accountable care approach to contract with dental providers that focus on various performance measures and has become one of the first dental carriers to earn URAC accreditation as a demonstration of its commitment to quality care. In tandem with its recent growth, Your Eyes' business strategy includes increasing its investment in mobile apps and online tools, such as cost estimator and assessment tools, which would enable its customers to engage with the company on a 24/7 basis.

Your Eyes' vision care network is comprised of independent ophthalmologists, optometrists, and retail chain locations nationwide. They cover well over 1.5 million members for vision benefits, primarily through employer-sponsored coverage.

The goal of Milos Columbo, the newly appointed CEO, is to expand its presence in the individual market. While the health insurance challenges faced by the underinsured and uninsured is rightfully grabbing national attention in recent years, Milos believes that dental health is receiving a lot less time and attention although its effects can be just as critical to overall health. Incidentally, his sister, Melina, co-authored a widely acclaimed 2008 study published in the *American Journal of Public Health*, showing positive association between oral health and heart health. With more than half of the US population lacking even basic dental insurance coverage, Milos' business goal is to push the boundaries of traditional dental care insurance using cost-effective strategies. Under his leadership, Your Eyes is in the process of revamping its product suites to better suit the individual market.

Dental plan options currently offered include DHMO and PPO product suites sold to over 2.5 million enrollees primarily in the employer group market. The DHMO plans require enrollees to select a participating (network) dentist and have no deductibles or waiting period. DHMO plan options can be tailored to meet a group's needs, ranging from a plan that has no enrollee cost sharing for Class I, II, and III services to plans that cover Class I services at no enrollee charge. The higher priced PPO plans give access to dental care both inside and outside of its networks by simply paying a discounted fee for service.

Your Eyes has two dental provider networks: a Tight network with high discount levels and limited provider participation and a Broad network with greater provider participation but average discount levels. Network providers have agreed to accept these network allowances as payment in full for Your Eyes' covered members. In addition, a 90th percentile payment mechanism is offered with no specific provider network. Exhibit 3 shows the provider discount and penetration for the PPO plans varying by the associated network option.

Since 2016, Your Eyes has offered pediatric dental benefits as a stand-alone-dental-plan carrier in both individual and SHOP Exchanges. Despite material investments on advertising campaigns and expansion of its network of pediatric dentists, they have not been able to gain significant market share in the pediatric dental market. The CFO envisions that an actuarially sound business strategy is needed to expand its market share from 4,500 pediatric enrollees in 2019 to 25,000 in 2021.

The Thunderball Corporation (Thunderball)

The Thunderball Corporation is a large insurance company operating in the United States and Canada. The corporate vision is to be a comprehensive provider of long term insurance products. Thunderball seeks to offer competitive products earning reasonable return for stockholders while growing at a financially sustainable rate.

Thunderball offers Group Long-Term Disability, Group Life, and Group and Individual Long-Term Care. They are also considering expanding into the Critical Illness insurance market but have hesitations given their lack of critical illness experience data.

Long-Term Disability

Thunderball has experienced steady growth in Long-Term Disability sales. Exhibit 1 lists the incidence rates by gender. Exhibits 2a and 2b list the death and recovery rates¹ assumed for males in the LTD plans with 3 month elimination period and 6 month elimination period respectively.

Long-Term Care

Thunderball expanded into Long-Term Care (LTC) in late 1980's. Initially, Thunderball offered only group coverage. After a few years, experience with individual coverage conversion quickly convinced management that Thunderball should also sell direct individual coverage. Today, all LTC policies are administered together whether issued through a group or directly to individuals. Thunderball offers 3 plans with different elimination periods and benefit periods with monthly premiums. The benefits and claim costs are seen below:

Moonraker Energy (Moonraker)

Moonraker Energy is a large company that has a network of laboratories and offices to support energy industries. Moonraker offers a broad range of consulting engagements including strategies for improving efficiencies in manufacturing and logistics, testing, inspection, and certification of a wide variety of products.

Moonraker’s current employee census includes 11,875 full-time (working 30 hours or more) and 700 part-time employees. Exhibit 1 shows a census of the full-time employees. Moonraker plans to expand its core services to pharmaceutical and biotech industries. Moonraker is actively hiring research chemists, inspectors, and biostatisticians to expand its market reach.

Moonraker offers a group disability plan for all of its employees.

Exhibit 3 – Group Disability Plan Benefits		
Description	Plan 1	Plan 2
Monthly Benefit	50% of Monthly Salary	80% of Monthly Salary
Monthly Maximum Benefit	\$3,500	\$5,000
Elimination/Waiting Period	3 Months	3 Months
Cost of Living Adjustment	0%	3%
Premium Cost Sharing	100% Employer Paid	80% Employer Paid

At no additional cost, Moonraker offers a group term life insurance benefit equal to the annual salary and Accidental Death and Dismemberment benefit equal to twice the annual salary. Employees are provided the option to buy supplemental life insurance with a coverage level of 2.0, 3.0, or 4.0 times the annual salary.

Due to its statistically credible size, Moonraker's health insurance plans are 100% experience rated. Moonraker currently offers two fully-insured group health plan options to its full-time employees. Employees have the option of a PPO plan with different cost-sharing for in and out of network and a high deductible health plan (HDHP). Exhibit 6 shows the plans available to their employees.

The newly appointed Benefit Director is exploring if it is advantageous to replace the fully-insured plans with a self-insured plan and an ASO arrangement. Possible self-insured plan options include mirroring the fully insured benefit models or adapting it to meet the specific needs of employees through a customized suite of benefit and product options. As part of this discussion, the Benefit Director understands that, in order to mitigate risk, Moonraker should consider obtaining stop loss coverage if they determine to proceed with the ASO arrangement.

We are still thinking hard about switching to a self-insured plan, but there is so much to consider. CFO Sir Frederick Gray is highly concerned with the additional risk that an ASO arrangement brings. We reached out to Royale Health, per your recommendation, to get more information about their stop loss coverage options. See the email below for more information.

I'll be in touch soon.

Thanks ----- Hugo

Mr. Drax,

We have always appreciated your business with us. We are always excited to grow with our employer groups as they seek to provide better and more affordable health care options to their employees. We have pulled the following large claimant information from your recent experience. There have been 9 larger claims. This should give you a better idea about the stop loss plan design you are considering.

Exhibit 4 - Total Annual Claims	
Claimant	Total Claims
Claimant J	\$125,000
Claimant A	\$500,000
Claimant M	\$185,000
Claimant E	\$135,000
Claimant S	\$300,000
Claimant B	\$150,000
Claimant O	\$160,000
Claimant N	\$275,000
Claimant D	\$195,000

We look forward to moving things along.

Dr. No's Herbal Tea (Dr. No's)

Dr. No's Herbal Tea is a startup firm, co-founded by Dr. No and Dr. Honey in 2013. Dr. No's currently employs 45 non-union employees. Due to the increasing popularity of its organic spiced herbal tea products, Dr. No's has plans to significantly increase its employee size in the next several years to meet its growing operational and marketing needs.

Dr. No's started offering a fully insured managed care health plan to its employees in 2016. Dr. No's provides all employees with a subsidy of \$170 monthly per employee towards the 2021 health insurance premium shown below:

Despite the employer subsidy, the co-founders are concerned by the low participation in the health plan. Company management is also evaluating strategies to control premium costs that have steadily risen in recent years. They are considering many possible alternatives, such as:

- Replacing the currently offered managed care plan option with an EPO plan with a more restricted network and lower premium,
- Self-insurance, or
- Dropping the employer sponsored health insurance and providing coverage through the SHOP Exchange.

Zorin Industries (Zorin)

Zorin Industries (Zorin) is a private equity firm that regularly acquires smaller companies. Their current portfolio of companies has employees concentrated in several different geographic areas.

Historically, Zorin has taken a hands-off approach to the benefits of its portfolio companies. They are concerned with keeping costs low and avoiding unnecessary risks. They also know they have very diverse employees in their portfolio companies and want to offer them plenty of options, although they are not concerned with the specifics of what is offered.

Zorin’s team has developed a core set of health benefits to offer to newly acquired portfolio companies:

- Zorin pays for employee only vision and dental coverage. Employees can pay more to cover spouses and/or dependents
- Zorin offers two medical plans to its employees: a PPO plan and a CDHP with HSA
- Zorin covers 80% of the premium cost for medical coverage
- The total premiums (both the company and employee’s cost) per employee per month are given as follows:

Exhibit 1 – Premium PEPM		
Coverage Tier	CDHP with HSA	PPO
Employee Only	\$300	\$400
Employee + Spouse	\$600	\$800
Employee + Child(ren)	\$400	\$600
Employee + Family	\$1,000	\$1,500

Zorin is acquiring a new company, A View to Kill Travel Agency (VTK) that offers one medical plan, a PPO.

Zorin requests a cost impact analysis for the VTK employees, evaluating both the impact of the change in out-of-pocket costs and employee contributions, the results of which are below:
